

Suspicious Website Clues

Purpose: Identify elements of suspicious websites.

It's important to know the difference between a trustworthy website and a suspicious website. Check out this sports website and circle the six parts that are suspicious.

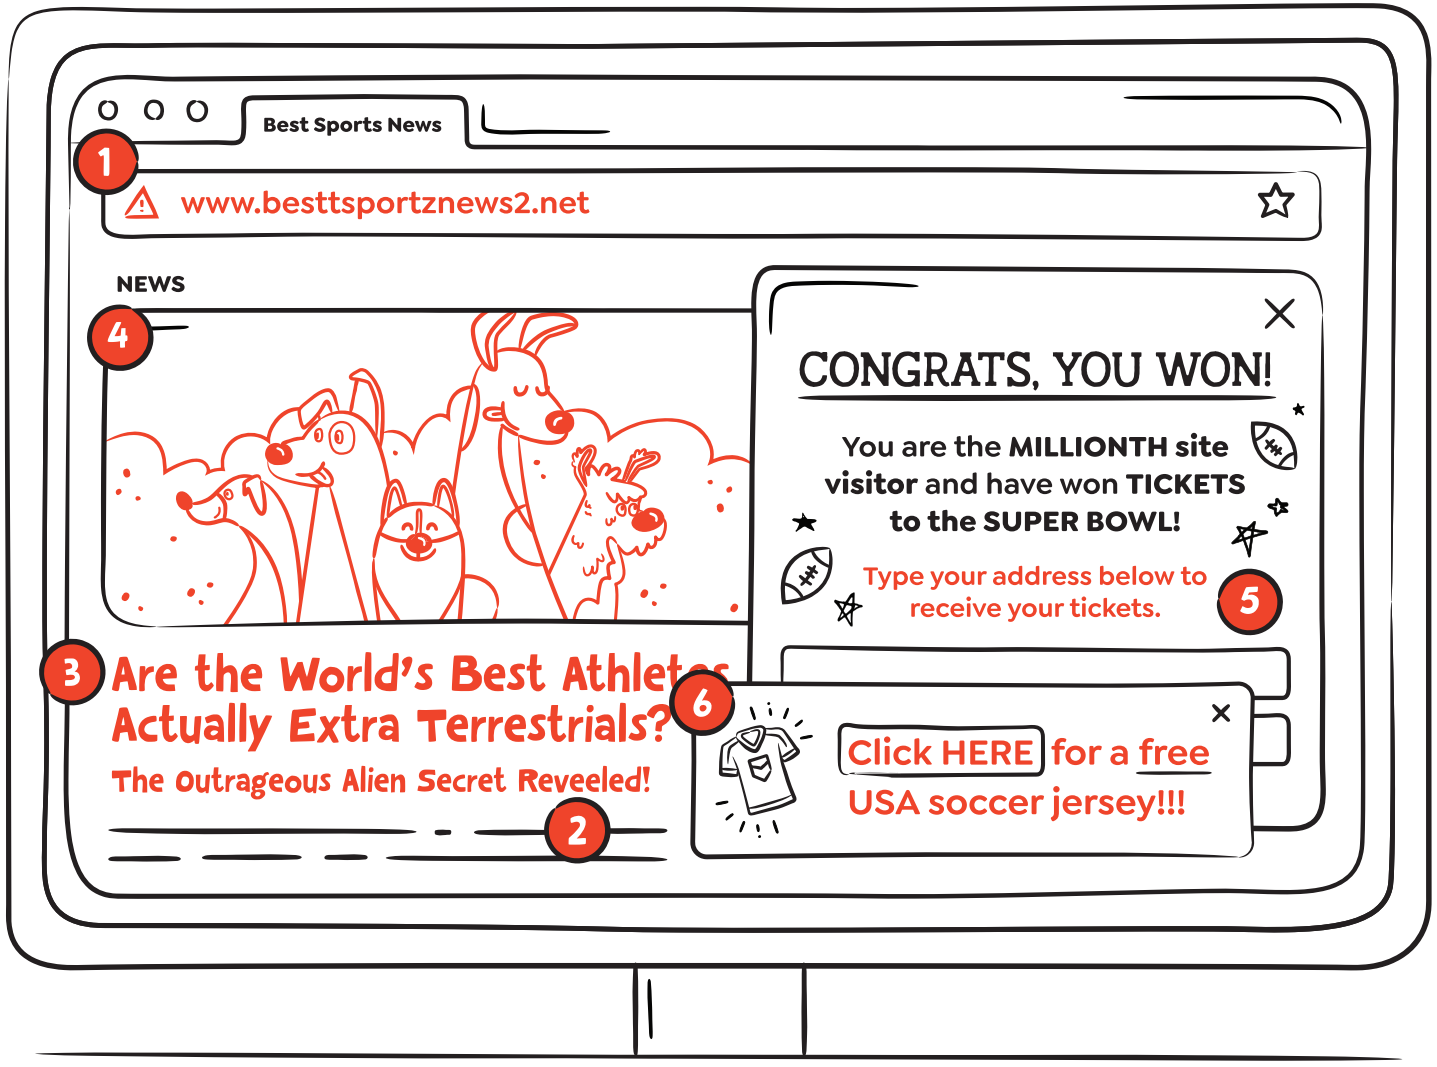

Do you see any of these things?

1. Lack of "https://" in the URL.
2. Misspelled words in the website text.
3. Headlines that sound questionable or untrue, also known as clickbait.
4. Images that don't match the text.
5. Asking for your personal information (such as your address, school or passwords).
6. Telling you to click something for free stuff.

Good job! Did you get them all? Share with a family member and tell them what you learned.

Answers: Suspicious Website Clues
